# Mentee-Mentor Agreement Goals

- Allow flexible customization to mentee-mentor preferences
- Track data and analyze trends that lead to success (publications, grants)
- Provide research-informed teaching on how to get these relationships right
- Direct thought to most important subjects and get computer to handle more trivial tasks
- Back-end: Operate as a part of Flight Tracker using REDCap for authentication. Viewed as independent application.
- Completely optional resource

# Mentee-Mentor Agreements: Introduction

[Front Page](#)

Welcome, Eric!

Start Now

Welcome to a new way to think about the agreement of collaboration between a Mentee (also referred to here as 'Scholar') and Mentor. Mentee-Mentor Scholar Agreements ('Mentoring Agreement'), or contracts, function to define a mutually agreed upon set of goals and parameters which provide a foundation for the mentoring relationship. Ideally, a formal agreement will address a broad range of domains, including the Scholar's research and education, professional development and career advancement and interactions between the scholar and mentor with respect to support, communication, personal conduct and interpersonal interactions.

While seen as a valuable mechanism to align expectations between scholars and mentors, and provide a road map for collaboration, agreements are not uniformly employed. One possible reason for the lack of universal use is the need for a more user friendly, relevant document which may serve as an active guidepost applicable to all levels of the scholar's career development. This program was created to provide an improved foundation for the development of agreement documents, and a site for their ongoing access and update.

# Survey Arrangement

- Same questions for mentee and for mentor
- All multiple choice and checkboxes, except for one
  - One notes box to suggest names for a mentor panel
- Each question has a notes field to record detailed notes
- Mentor trumps mentee; mentor answers leads to final agreement

Hi, Eric!

Welcome to the Mentoring Agreement. The first step to completing the Mentoring Agreement is to reflect on what is important to you in a successful mentee-mentor relationship. Through a series of questions on topics such as meetings, communication, research, and approach to scholarly products, to name a few, this survey will help guide you through that process and provide you with a tool to capture your thoughts. The survey should take about 30 minutes to complete. Your mentor(s) (Katherine Hartmann) will also complete a survey.

The mentee should complete the agreement first. An email will alert the mentor(s) whenever the agreement is submitted. The mentor(s) should arrange a time to meet with the mentee to fill out their part of the agreement, which will act as the final authorized/completed agreement. Then the completed agreement can be viewed, signed, and printed. A follow-up email will be scheduled for when the agreement should be revisited.

Each section below will explore expectations and goals regarding relevant topics for the relationship, such as the approach to direct one-on-one meetings.

## Mentorship Agreement between Meredith Campbell and Eric D. Austin 09-24-2020

Meredith Campbell (mentee) and Eric D. Austin (mentor) do hereby enter into a formal mentoring agreement. The elements of the document below provide evidence that a formal discussion has been conducted by the Mentor and Mentee together, touching on multiple topics that relate to the foundations of a successful training relationship for both parties. Below are key elements which we discussed at the start of our Mentee-Mentor Relationship. These elements, and others, also provide opportunities for further and/or new discussions together at future time points (e.g., 6, 12, and 18 months from now, as well as on an as needed basis).  
We will revisit this agreement on-or-around 9-24-2021.
